

YALÇIN AYASLI

Dr. Yalçın Ayaslı (B.S.E.E. Middle East Technical University, Ankara, Turkey, 1968, M.S.E.E. and Doctor of Science, MIT, Cambridge, MA, 1973) served as a faculty member at Middle East Technical University Electrical Engineering Department and as a principal engineer at Raytheon Research Division before founding the Hittite Microwave Corporation (<http://www.hittite.com>), a manufacturer of radio frequency integrated circuits and subsystems in Boston, Massachusetts. He has been the CEO and Chairman of Hittite Microwave since 1985. Dr. Ayaslı has been elected to be a Fellow of International Electrical and Electronics Engineering Society and holds several publications and patents in his field.

Dr. Ayaslı served as the President of New England Turkish Students Association. He is the founding Trustee of Turkish Cultural Foundation, a public charitable organization dedicated to promoting Turkish culture and heritage, as well as supporting research, documentation, and publications on the subject. More information on the Foundation's projects and grants may be found at www.turkishculturalfoundation.org. Dr. Ayaslı is also the chairman of the Turkish Coalition of America, www.tc-america.org, a non profit organization dedicated to fostering greater understanding on Turkish American issues through public education.
